SKILLS

Languages: Python, C++, JavaScript, HTML, CSS

Technologies: React.js, React-Router, Redux-Toolkit, Tailwind CSS, Node.js, Express.js, Context API

Tools: Git, GitHub, VS Code, Browser Developer Tools, MongoDB, MySQL

PROJECTS

Movie Place - Movie Gpt Application | Live Link Github

- Implemented **authentication** using **Firebase** for a login page with sign up functionality, enhancing **security** and user management.
- Seamlessly integrated the **TMDB API** to fetch real movie data, enhancing user engagement by **20%** through dynamic page rendering and **search capabilities**.
- Implemented an **AI-driven movie recommendation feature** utilizing **OpenAI API**, enhancing content discovery and user experience.
- **Optimized application performance** by implementing **lazy loading** techniques, ensuring faster initial load times and improved user experience.
- **Technologies used:** React, Firebase, TMDB API, OpenAI API, Context API and Tailwind CSS

Food Heart - Food Ordering Web Application | Live Link Github

- Developed a fast and **responsive** food ordering app **from scratch** using **React.js** and **Redux Toolkit**.
- Integrated **real-time restaurant data** from **Swiggy Live Public API**, ensuring **up-to-date information for users**.
- Implemented essential **functionalities** including **restaurant list**, **filters**, **search**, **accordion**, and **cart**, all using **real data** from **Swiggy app**.
- Leveraged **Tailwind CSS** for modern and responsive styling, enhancing the overall user interface and experience.
- **Technologies used:** React.js, Redux Toolkit, Swiggy Live Public API, Tailwind CSS

Video streaming App | Live Link Github

- Built a highly **optimized** and **responsive** Video streaming application using **YouTube Live API**, featuring key functionalities such as **debouncing in search**, leading to a significant **40% boost** in user engagement.
- Integrated advanced technologies including **React.js**, **Redux**, **React-router-dom**, **Tailwind CSS**, and **SuggestionAPI**, fostering a modern and efficient development approach.
- Implemented innovative **features** like **dynamic video cards**, **nested comments**, and **real-time search** utilizing **YouTube API**, enhancing user engagement and satisfaction.
- **Technologies used:** React.js, Redux, React-router-dom, Tailwind CSS, and SuggestionAPI

EDUCATION

LNCT University

B.C.A. Computer Science

June 2024

Current GPA: 8.0/10.0

Kendriya Vidyalaya

Class 12

June 2021

Percent: 78/100

CERTIFICATION

Cloud Security Alliance

Cisco

May 2023

Mathematical Thinking in Computer Science

Coursera
